## AGC Re-Opening

Unfortunately little has changed in connection with our reopening since my last letter.

As such we are now looking to develop an online service in the near future. While not the same as our pre-Corona services we will still aim to provide fun-based high quality gymnastics training, just in a different manner.

We will be asking for expressions of interest at some stage this month and look to go live some-when July onwards. Unfortunately, while we are excellent gymnastics coaches, our film production skills are a little under-developed. Please bear with us as we investigate this new addition to our services.

We are also keeping on top of the work required to reopen services at the gym. Although gymnastics specific guidelines and timescales are not yet available we are reviewing all potentially relevant government releases - all School related guidance, the Phased return of sport and recreation, Reopening for business etc etc - as well as NHS & PHE information.

I do doubt that we will be able to pick-up-and-run with our old timetable anytime in the near future. I can see that a phased return might be possible. Currently I am considering the following phases:

- 1<sup>st</sup> - Competitive squads and team return to training in small groups. This will allow us to test and refine all of new processes and practices. I am not being rude but I have started to use the following slogan to convey the overall sense of the changes.

# Get in, Train, Get out

- 2<sup>nd</sup> - Recreational classes restart.
- 3<sup>rd</sup> - PreSchool classes restart.
- 4<sup>th</sup> - Other services

Hopefully we will have more details soon.  
Stay safe and secure.

Yours sincerely

Debra Roberts - Manager
